Appendix:

Requirements for Subsequent Management of Registration Certificate of Overseas Suppliers of Imported Scrap Raw Materials

In accordance with the stipulations of the Announcement No. 115, 2003 and Announcement No. 48, 2004 of General Administration of Quality Supervision, Inspection and Quarantine of the People's Republic of China (hereinafter referred to as AQSIQ), the evaluation on applications for registration of overseas enterprises supplying imported scrap raw materials for 2004 has been completed and the result has been released in Announcement No. 159, 2004 and Announcement 202, 2004.

Registration Certificate of Overseas Supplier of Imported Scrap Materials (hereinafter referred to as Registration Certificate) has been sent by post to all approved and registered suppliers. However, as some Registration Certificates became undeliverable or were returned after being delivered due to unclear or error addresses and the registration of some suppliers requires updating, the announcement is issued as follows:

1. Suppliers that have not received the Registration Certificates should submit relevant materials under the following circumstances:

1.1 Suppliers listed in the List of Unreachable Overseas Suppliers of Imported Scrap Raw Materials (See Appendix) are required to provide detailed and accurate contact information (which includes company name, address, contact person, telephone number, fax number and/or email address, and applications with incomplete information shall be regarded as invalid) in both English and Chinese by fax or email within 50 days of issuance of this Announcement, and all materials should be duly stamped and signed by legal representatives. AQSIQ shall, after verification, send the Registration Certificates by post accordingly at the expenses of applicants.

1.2 Suppliers failing to receive the Registration Certificates by Jan. 31 are required to send us the written materials before Apr. 1st (subject to the postmark date) containing detailed and accurate contact information in both English and Chinese and contact information provided in the original application materials. All these documents should be duly stamped and signed by the legal representative.

2. Suppliers requesting for changes of registration should provide the following materials under the following circumstances:

2.1 In case the Registration Certificate is inconsistent with the original application, the supplier should submit a written application duly stamped and signed by the legal representative indicating the required alteration and a copy of Registration Certificate by fax. AQSIQ shall, after verification, make the alteration accordingly and reissue

the Registration Certificate after taking back the original certificate.

2.2 Suppliers requesting for change of registration information (including changes of company name, address, legal representative and types of scrap raw materials) should submit their written application for such changes of registration in accordance with the Announcement No. 115, 2003 and Announcement No. 48, 2004.

--Suppliers requesting for changes of address and legal representative should submit Application for Registration of Overseas Supplier of Imported Scrap Raw Materials and commercial registration documents (copy). Information on new offices and processing plants (like plan view) should be submitted for application for change of address.

--Suppliers requesting for changes of company name and legal representative should submit the application for renewed registration.

--Suppliers requesting for adding new items of scrap raw materials should submit the Application for Registration of Overseas Suppliers of Imported Scrap Raw Materials and related information on newly-added items (including source of supply and quality control measures for environmental protection, relevant documents on type, quantity and environmental quality of newly added items, information on quality control management system, relevant technical personnel, check and acceptance system of raw materials, measurement system, equipment calibration system, regulations on control of substandard products, employee training program and relevant Chinese standards on environmental control of imported scrap raw materials)

3. Application materials should be sent to the following address:
